

HISTORY

Retail and Lifestyle

Kenne Shepherd Interior Design Architecture is known for retail and lifestyle spaces that distill the client's brand into evocative, contemporary sales environments. Combining branding and marketing expertise, a passion for design and experience in the construction process, we take our clients from first concept to a memorable interior that engages today's consumer. Spaces we've designed for such clients as Calvin Klein, Lancôme, Ferragamo and Wolford are distinctive for their refined detailing, rich materials and innovative use of lighting, technology, and construction techniques.

Residential

In our residential work we translate our clients' visions into inviting spaces that have a clear, logical flow - sophisticated, elegant living spaces whose fabrics and finishes offer a refined level of warmth and comfort. As subtle expressions of today's modern lifestyle, our interiors meet clients' tastes and priorities whether it's a city pied-a-terre or a country home. On moving in they find a well crafted environment that anticipates their every desire.
