

## MISSION

Kenne Shepherd Interior Design Architecture PLLC creates elegant, sophisticated environments for international and US based corporate, commercial and private clients. Orchestrating a seamless integration of architecture and interior design, our full service firm responds to the unique character and needs of our clients, designing spaces that express their essence.

As architects and interior designers, we believe that our practice is responsible for the well being of those who inhabit our work. Whether creating a design for a new retail location, a corporate headquarters, or a private residence, our mission is to immerse ourselves in all aspects of the challenge - structure, space, program and image - to create an integrated system of form and expression. We think holistically to embrace our client's identity and lifestyle and embody it in an environment that is sustainable, cost conscious, distinct in its character and of the highest integrity and quality.
